DEAR PAUL HERSHBERGER,

Congratulations on your new Golden Retriever and welcome to the world of purebred dogs.

By registering your dog with the AKC®, you've unlocked a world of exciting opportunities for you and your canine companion—from club memberships to sports and events designed just for dogs and their owners.

We encourage you to get involved and experience the fun of participating in AKC activities. Whether you're interested in competition, training, or simply connecting with other dog lovers, there's something for everyone.

As a not-for-profit organization, the AKC uses registration dollars to support vital programs such as: **AKC Pet Disaster Relief, Purebred Dog Rescue efforts, The AKC Kennel Inspection Program, The AKC Canine Health Foundation, and The AKC Humane Fund Domestic Violence Shelter Program.**

Your registration also includes exclusive health benefits to help keep your new dog safe and healthy. Pet health insurance from AKC Pet Insurance offers affordable, comprehensive coverage and customizable plan options that allow you to build a plan to help meet your individual needs and budget. For more information and to get a quote, visit www.akcpetinsurance.com or call 866-725-2747.† (*Activation is required in most states.*)

Owning a dog is a joy, a privilege, and a responsibility. The AKC is here to support you with expert resources on training, grooming, health, and more. Visit www.akc.org for helpful tools and guidance to help you on your dog ownership journey.

We also recommend the **AKC® Canine Good Citizen (CGC®) Program**, which lays a solid foundation for further training and helps ensure your dog is well-mannered at home and in public. CGC is also a great first step toward participating in fun activities like Rally, Obedience, and Agility. You can find CGC classes and evaluators in your area through our website.

We're thrilled to have you as part of the AKC community. Enjoy the journey with your new Golden Retriever.

Sincerely,

Gina M. DiNardo
President and Chief Executive Officer
